

Love Is Everywhere I Go

Sam Phillips

Going down this [Incomprehensible]
There is no end to the good

Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you

Burning light inside my dreams
I wake up in the dark
The light is outside my door

Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you

Chasing every fragment I see
Looking through you
Love is looking for me
Breaking open the clouds
I'm not stranded in time
(Love is everywhere I go)

Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
