

# To Be Happy

Sara Evans

If I had one wish, I would wish for two  
For me and you to be happy  
With the way things are, sometimes gets hard  
But, we've come so far to be happy

Yeah, don't think that I'm complaining  
Sometimes it keeps on raining  
Oh but don't be frightened by thunder and lightning  
The sun comes out and the flowers grow  
And you find you're already on the road to be happy  
If I had one prayer to pull out of thin air  
Everyone, everywhere would be happy  
We'd hand out Valentines, I'd be yours, you'd be mine  
There's a place, there's a time to be happy

Well we fuss and we fight  
We can't see the light  
We wake up and decide  
We don't need to be right to be happy

Yeah, don't think that I'm complaining  
Sometimes it keeps on raining  
Oh but don't be frightened by thunder and lightning  
The sun comes out and the flowers grow  
And you find you're already on the road to be happy  
If I had one prayer to pull out of thin air  
Everyone, everywhere would be happy  
We'd hand out Valentines, I'd be yours, you'd be mine  
There's a place, there's a time to be happy
