

# Shine

Sarah Bettens

She says she's got it all planned out  
She's got places to go  
And I don't have a single doubt  
She will find her way home

And she laughs  
Like she's free  
And it's like a thousand lights that  
Once she moves  
With her soul

Shine, shine when the world is dark as night  
Don't be afraid to know you're right  
And when you just can't shine no more  
That's what I'm here for  
Ooohh

I know that I can't trade with you  
I was ten once before  
But all the things that make you you  
I would pay highly for

And she laughs  
Like she's free  
And it's like a thousand lights that  
Once she moves  
With her soul

Shine, shine when the world is dark as night  
Don't be afraid to know you're right  
And when you just can't shine no more  
That's what I'm here for

And I know you're here for a million reasons  
Some still to come  
In my heart you're here  
To make sure that I have  
One more girl to love

Shine, shine when the world is dark as night  
Don't be afraid to know you're right  
And when you just can't shine no more  
That's what I'm here for
