

# Are U Ready to Ride?

Sarah Connor

[intro]

One and one is two  
And the one for me is you  
Only you

[verse 1]

It's every time I see you I know I have to have you  
'Cause baby you just drive me wild  
Can't get you out of my mind  
I feel just like I wanna lay  
So close to you that people say  
The two of us are merging  
Oh baby this is urgent

[chorus]

One and one is two and baby the one for me is you  
Now that you've learned the ABC you're ready to come inside my  
dreams  
All I wanna do is show you a love you never knew  
So I will sing this song to you and make you see one and one is  
two

[verse 2]

Now listen:  
And when we are together, the feeling's so much better  
Just you and me we take a ride  
To get into our inside  
Dive deeper than the ocean's deep  
Climb higher than the mountain's peak  
So let us start the merging  
'Cause baby this is urgent

[chorus]

[b-chorus]

Love is on my mind, can I get you in tonight  
One and one is two, baby, baby  
Up, down, all around let us turn it inside out  
One and one is two
