

If U Were My Man

Sarah Connor

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man

Boy I see you lookin' at my body
With that look in your eyes
And even though you're standing with your girl
You've got me on your mind

If we spent one night, boy I'd love to touch your heaven
And do you right, just sit back
Enjoy the ride
Baby close your eyes, there's so many things that I want to do
Baby with you, oh baby baby

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man

I'm not into stealin' other lovers
But we both know this game
And lookin' at the way you want me baby
I know you feel the same oh baby

If we spent one night, boy I'd love to touch your heaven
And do you right, just sit back
Enjoy the ride
Baby close your eyes, there's so many things that I want to do
Baby with you, oh baby baby

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man

If we spent one night, boy I'd love to touch your heaven
And do you right, just sit back
Enjoy the ride
Baby close your eyes, there's so many things that I want to do
Baby with you, oh baby baby

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man

If you were my man, I could be your fantasy
And if you were my man, I'd give you sweet ecstasy
Yes if you were my man, what I'd do
If you were my man, if you were my man
