

# The Loving Permission

Sarah Connor

This time I don't wanna go out  
Let's just stay inside  
And look what we can find  
If we only try  
To make each other feel right  
It will be right  
Tonight

Chillin', relaxin'  
With my baby  
You just got the loving permission  
Ridin', climbin'  
A new level  
You just got the loving permission

Let me wake you up for a ride  
Let me do some things to your body  
Is it day or deep in the night  
I don't care 'cause lovin' you has always been right  
Let me give you all that you need  
Let me do sweet things to your body  
So the people down on the street  
Know the sound they hear is our heartbeat

Chillin', relaxin'  
With my baby  
You just got the loving permission  
Ridin', climbin'  
A new level  
You just got the loving permission

We don't have to be very straight  
We just have to follow our feelings  
'Cause I told your boss you'd be late  
He said it's alright you better do  
What can't wait  
Everybody wants to be pleased  
They all look for sexual healing  
But I just need you for my ease  
Baby come and get it on with me

What about some dancing?  
Oh, no, no, no  
Later on romancing?  
Oh, no, no, no  
Candlelight and dining?  
Baby, baby we just need each other

Chillin', relaxin'  
With my baby  
You just got the loving permission  
Ridin', climbin'  
A new level  
You just got the loving permission

Chillin', relaxin'  
With my baby

You just got the loving permission  
Ridin', climbin'  
A new level  
You just got the loving permission

Do you wanna chill with me  
Do it and relax baby  
Do you wanna be with me  
Do you wanna
