

## Greater than God

Satariel

We are greater than God  
We are greater than other people  
We are not like those from God  
We hate other people by right

An awful spawn we may seem  
But we're truly blessed with beauty and grace  
I excuse me not  
For my blood values higher than yours

We want it all, and deserve even more  
More real than God, so worship then rather us

[CHORUS]
