

We're Everything To Me

Sawyer Brown

Standing on the corner and unsuspecting
My heart out left unprotected
You walked in, right at home
Didn't take long for me too know

We're the best thing
That ever happened to me
We're everything, everything
Only took you for me to see
We're everything to me

Otta' hear 'em talk
About our condition
Lost in love beyond recognition
When I see you, I see me
We don't say I girl, we say we

We're the best thing, the best thing
We're everything too me

We're everything, everything
We're everything too me
We're everything, everything
We're everything too me
We're everything, everything
We're everything too me
