## We're Everything To Me

## **Sawyer Brown**

Standing on the corner and unsuspecting My heart out left unprotected You walked in, right at home Didn't take long for me too know

We're the best thing That ever happened to me We're everything, everything Only took you for me to see We're everything to me

Otta' hear 'em talk About our condition Lost in love beyond recognition When I see you, I see me We don't say I girl, we say we

We're the best thing, the best thing We're everything too me

We're everything, everything We're everything too me We're everything, everything We're everything too me We're everything, everything We're everything too me
