

Candy Love

September

It started with music
Can't get me off your mind
I know how to use it
Play it all of the time
This song has got you shaking
You need the sugar that I supply
You held out for long
But now you're breaking
I know you're mine

And you wish
And you hope it's gonna be tonight
Candy love
Baby you wish
And you hope you're gonna get it tonight
Candy love, it's so right
Candy love, it's gotta be tonight

It's always been easy
Like moth to a flame
Just learn how to please me
Or I'll drive you insane
The moves have got you spinning
The beat is travelling up your spine
You're playing the game but I keep winning
You know you're mine

And you hope it's gonna be tonight
Candy love
Baby you wish
And you hope you're gonna get it tonight
Candy love, it's so right
Candy love, it's gotta be tonight

And you wish
And you hope it's gonna be tonight
Candy love
Baby you wish
And you hope you're gonna get it tonight
Candy love, it's so right
Candy love, it's gotta be tonight
