

Build High Tear Low

Serafin

Giving me some time and you'll make me hate
Cause you are a person of this day

Build high
Tear low

Have you seen the pictures of the massive grave
Have you ever wondered what its like to be saved

Build high
Tear low

You may not let
Go
You may not let go

Holding in his room and he's with my note
I thought he'd like the images of me on his boat

Build high
Tear low

"Now Smith" he said, "now you're not dead but you're going down
This song cannot be written unless I am around"

Build high
Tear low

You were from an evening gone
You were from an evening gone
You were from an evening gone
I want more to come
I want more to come

You were from an evening light
I want to be the night
I want to be the night
Good night

You may not let
Go
You may not let go

Fathers in the mirror makes me feel unloved
I'm walking round the city with my face in a glove

Build high
Tear low

The trees are gone we've all been bombed by Dollars and Pounds
It's a lovely place for a slaughterhouse and children's playgrounds

Build high
Tear low

You were from an evening gone
You were from an evening gone

You were from an evening gone
I want more to come
I want more to come

You were from an evening light
I want to be the night
I want to be the night

You were from an evening light
You were from an evening light
You were from an evening light
