

# Don't Leave Me This Way

Sheena Easton

The door is closed again, its closed on me  
Here I am alone again, there's not a soul to see  
I'm on my own now, it didn't turn out right  
My bed is cold as ice, and you're out there in the night

Oooh, cant get you off my mind  
Oooh, you know my heart is on the line and it happens every time

Don't leave me this way, baby, don't leave me this way, oh no  
I need you more than I could ever say, do you have to stay away  
so long

I thought we had it all, there was something there  
But I made my first mistake when I thought you'd care

Oooh, cant get you off my mind  
Oooh, you know my heart is on the line and it happens every time

Don't leave me this way, baby, don't leave me this way, oh no  
Don't leave me this way, baby, don't leave me this way, oh no
