

# Double Standard

Sheena Easton

Caught you with her, I let it slide  
Egg on my face, swallowed my pride  
But it's happened again, oh, it's too many times  
It seems the code you live by just isn't mine, just isn't mine  
You got

Double, double standards  
you got a different point of view  
You got double, double standards  
The rules that you applied to me  
you don't apply to you  
Double, double standards  
We got different states of mind  
You got double, double standards  
If you can do it, I can do it  
There's no dividing line

Don't worry about me, I'll be alright  
Go have your fun, stay out all night  
But I won't be waiting  
I've got someone new to meet  
He treats me fifty-fifty  
it's a two way street, you're a one way street

With your  
Double, double standards  
you got a different point of view  
You got double, double standards  
The rules that you applied to me  
you don't apply to you  
Double, double standards  
We got different states of mind  
You got double, double standards  
If you can do it, I can do it  
There's no dividing line

Double, double standards  
you got a different point of view  
You got double, double standards  
The rules that you applied to me  
you don't apply to you  
Double, double standards  
We got different states of mind  
You got double, double standards  
If you can do it, I can do it  
There's no dividing line
