

# If You Wanna Keep Me

Sheena Easton

When we first met  
You use to take the time  
To hold me baby  
To show your love was mine  
You use to tell me  
You'd never leave me  
But every night I cry myself to sleep

If you really really love me  
Your affection shouldn't change  
Could it be you've been deceiving  
Stop believing  
Believing in love  
Believing in me

The things that you did to get me  
Are the same things you do if you want to keep me

You take for granted I'll always be here  
You think my lovin' will never disappear  
I need the person that I remember  
To give me the love that keeps me satisfied

Do the same things you did  
I want the same love you give  
I want the same love you gave to me  
Can't you see  
Do the same things you did  
I want the same love you give  
I miss the way you use to hold me tight  
All through the night
