

What If We Fall In Love

Sheena Easton

You laid your feelings on the line, I never stood a chance
We found the perfect love this time, why let little doubt turn
us inside out

What if we fall in love, what if we cant get out
What if were in too deep, guess we both got doubts
What if it doesn't last, what if the road gets rough
Only fools ask what if we fall in love

Life never gives a guarantee, love doesn't always last
Why worry bout our destiny, I'm with you tonight, lets not ques
tion why

If you ever find yourself confused, if you ever think of leavin
g me
Just remember how much I love you, love is never worry free

What if we fall in love?
