

Live Wire

Sheryl Crow

Well I got me a lover as stubborn as a weed
But he met his match on the day he met me
Even when I paddle my boat upshore
Will the river keep on floating me right back to your door

No telling when the lightning strike
The way you make me feel I gotta hold on tight

I got a live wire
I got a life wire, yeah
Some people just built that way
Never looking back at the mess they make
Live wire
I got a live wire
You never know what the cat'll drag in
This bird's getting out of his cage again

Got a live wire
I got a live wire

Well I got a joint in the middle of town
Stay up all night when my friends come round
You know it's all gonna change when the screendoor slams
There comes a wild wind blowing you back into my hands

Next thing you know your hair is sanding on end
Circuits start to blow me off my feet again

I got a live wire
I got a live wire
Some people just built that way
Never looking back at the mess they make
Live wire
I got a live wire
Never knowing what the cat'll drag in
But this bird's getting out of his cage again
I got a live wire
I got a live wire

Lonely girl
Do your own [?] thing
Michelle

My love for your is a hurricane
Come crashing on me like a runaway train, ooh
My love for you is a house of fire
Well I'm burning up with a strange desire
Oh!

I got a live wire
I got a live wire
Some people just built that way
Never looking back at the mess they make
Live wire
I got a live wire
You never know what the cat'll drag in
But this bird's getting out of his cage again

I got a live wire
I got a live wire
Some people just built that way
Never looking back at the mess they make
I got a live wire
I got a live wire
Oh, got a live wire
I got a live wire
Set your soul on fire
I got a live wire
...
