

# Them

Simon Carly

What shall we do about them  
When they move into your neighborhood  
They take over but good  
They want you all body and soul  
Then it's just your body  
Then they go  
What shall we do about them

[Chorus:]

What do they want  
What shall we do about them  
What do they want  
What shall we do about them  
What do they want

One of them asked me to dine  
Then he ate me all up  
Got full then he blew me up  
I got big and round and lovable  
He saw I was immovable  
He got bored, went to war  
I got one baby, he's giving me more  
Once I swore I'd never give myself up

[Chorus]

I know that them we are not  
I have loved them alot  
And I have loved alot of them  
You could say that I am experienced  
Enough to know that they are aliens  
Do you keep them away, beg them to stay  
Say it's O.K., do it their way  
I used to say I'd never give myself up

[Chorus]
