

# Left Right Left

Simon Curtis

Left, Right, Left  
Left, Right, Left  
Left, Right, Left  
Left, Right, Left  
Left, Right, Left  
Left, Right, Left

Little Boy Blue, Whatcha gonna do?  
Listen what they tell you, Or think for yourself?  
Do you, know the truth? Or is it in an agenda and you can't tell?  
I know, also, I see different, Sides of things I only thought I knew

Turn off the mic, let another voice through  
Hear a little reason through the subterfuge  
Alert the Media, What does it mean to ya?  
Left Right Left Right  
Left all the schhh, there's another choice too  
Life will turn to treason when you get confused  
Sitting on the soldiers, Doing what they told ya  
Left Right Left Right Left

Nice to see,  
It's coming from the people that should know better  
I see hypocrisy, getting off the hook, but I won't let ya  
Politicians, Wax poetic  
Live on things they only think they know

Turn off the mic, let another voice through  
Hear a little reason through the subterfuge  
Alert the Media, What does it mean to ya?  
Left Right Left Right  
Left all the schhh, there's another choice too  
Life will turn to treason when you get confused  
Spitting on the soldiers, Doing what they told ya  
Left Right Left Right Left

Realistic Kingdom-ness is killing this country  
Where is the intelligent responsibility?  
If you let the people vote themselves in treasury  
Give them time, they will ensure they always soon will be,  
soon will be,  
soon will be,  
soon will be

Left, Right, Left,  
Left, Right, Left,  
Left, Right, Left,  
Left, Right, Left,  
Indulge every decadence,  
Don't fear the consequence,  
Blinders up, they claim to see  
No responsibility

Turn off the mic, let another voice through  
Hear a little reason through the subterfuge  
Alert the Media, What does it mean to ya?  
Left Right Left Right

Left all the schhh, there's another choice too  
Life will turn to treason when you get confused  
Sitting on the soldiers, Doing what they told ya  
Left Right Left Right Left

Turn off the mic, let another voice through  
Hear a little reason through the subterfuge  
Alert the Media, What does it mean to ya?  
Left Right Left Right  
Left all the schhh, there's another choice too  
Life will turn to treason when you get confused  
Sitting on the soldiers, Doing what they told ya  
Left Right Left Right Left
