

## Daydreaming

Simply Red

I'm a believer yes I am  
I do the very best I can  
You might say I'm a daydreamer  
Do you feel you're a daydreamer

In this world we're living in  
Our suffering's a sin  
You might say we need a faith healer  
Do you pray we need a faith healer  
Don't stop me daydreaming  
Don't stop me daydreaming  
Dreaming of a world where love is strong  
Dreaming that the human race goes on and on and on

Dear life lives on

Let's cool it all down if we can  
And show the very best of man

Do you feel like a daydreamer  
(Yes I do now)

'Cause In this world we're living in  
You know that sufferings a sin  
You might say we need a faith healer  
Do you pray we need a faith healer  
Don't stop me daydreaming  
Don't stop me daydreaming  
Dreaming of a world where love is strong  
Dreaming that the human race goes on and on and on

Dear life lives on and on and on and on
