

## Each Day

Simply Red

Feeling you more and more each day  
As my heart learns to comprehend  
I'm devoted to you  
And the dreams we have  
I wanna be with you, stay with you  
Till the end

When he sang he was tangled up in blue  
I knew I was born that way  
Our future is really down to you  
That is if you feel that I behaved

I have fallen for you, anyway  
But what's important is that you know  
That I need you to stay forever

Each day, each day together  
Each day forever

I have fallen for you, anyway  
But what's important is that you know  
That I need you to stay forever

Each day, each day together  
Each day, each day forever  
Each day, each day together  
Each day, forever
