Deathwalker

[Sinner, Naumann, Beyrodt] I'm gonna push it hard the untouched mystery On the highest level, ready for speed Dark dimensions in the killing zone A detonations cracking behind the wall You gotta hold on, when illusion's gettin' real You gotta hold on, no more limits Thunder roars and siren sounds I walk the darkness, hit the ground Sink or swim, do or die Sharper than a serpent's bite You gotta hold on, when illusion's gettin' real You gotta hold on, no more limits You gotta go - deathwalker You gotta go - deathwalker You and me You gotta go - deathwalker You gotta go - deathwalker You and me Far too long your time has come Look to the left, look to the right And if you're ready to rumble For a fight in the night And when your time is over you're gonna die You gotta hold on, when illusion's gettin' real You gotta hold on, no more limits Deathwalker, deathwalker You gotta go
