

Go Your Way

Sixpence None The Richer

If you go your way all the time
You will go your way
I'll go mine

When summer comes I can be free
And we'll figure what we're supposed to be
And we'll meet again when all the leaves are changing...

(Wait)
I get mixed up
(Love)
I get it wrong
(I'll)
I find my way
(be)
When I get lost
(wait)
I loved you then
I love you still now
Don't think that I've forgotten how

But going my way made it clear
There is no way without you near
We are together when we're free
We can figure out how it's supposed to be
We can figure out what we're supposed to be...love

(Wait)
I get mixed up
(Love)
I get it wrong
(I'll)
I find my way
(be)
When I get lost
(Wait)
I loved you then
I Love you still now
Don't think that I've forgotten how

If you go your way all the time
You will go your way I'll go mine
