

Here's To...

Slade

Hey lads and lasses come raise up your glasses
Make sure they're filled up to the hilt
Going on the brink again
Buy me a drink then I'll show you what's under my kilt
So here's to the New Year - Here's to yourself
Cheers to you far and near - Here's to your health

Hey lads and lasses come raise up your glasses
The parties been rockin' all day
Going on in midnight and all of us getting tight,
Big Ben is bangin' away

So here's to the New Year - Here's to yourself
Cheers to you far and near - Here's to your health

One more wee toddy and I'm anybody's
I hope she's the same over there
We're gonna let the New Year in
What a noise what a din, all put your hands in the air

So here's to the New Year - Here's to yourself
Cheers to you far and near - Here's to your health

So here's to the New Year - Here's to yourself
Cheers to you far and near - Here's to your health
