

# Shadow Life

Slash

A shadow life will only break your heart  
It steals the light and tears a soul apart  
Like a shadow in the dark

I know you're living in a shadow life  
Better watch your step  
Should you stumble, you're gonna fall

'Cause daddy's secret are the killing kind  
Rope around your neck  
It's a wonder you breathe at all

You turn a blind eye and I hold on  
You're the fool, will it ever change?  
How can't you ever see?

The shadow life will only break your heart  
(Like I said before)  
It steals the light and tears a soul apart  
Like a shadow in the dark

I can feel it when you're under me  
There is something else  
There is something I can't let go

Never silenced to the misery  
Feel it in your sex  
Tear it down  
Now we're all alone

And still you just deny it all  
(But I can't take this anymore)  
But I can turn away

The shadow life will only break your heart  
(Like I said before)  
It steals the light and tears a soul apart  
Like a shadow in the dark

It's coming, it's coming  
It hurts as it tears us apart  
Just like a shadow in the dark

(You're a shadow in the dark)

The shadow life will only break your heart  
(Like I said before)  
It steals the light and tears a soul apart  
Like a shadow in the dark  
I feel it when you're under me  
There's a dirty secret to this misery, yeah  
The shadow life will only break your heart  
Like a shadow in the dark  
(Like a shadow in the dark)  
(You're a shadow in the dark)
