

Sunshine

Smoke Fairies

Tongue tied
I can feel my words stick
Somewhere over the Pacific
And all his friends have said
Leaving me would be best in the end
In the long run

Shadows covering our faces
Feels like I turn dark beautiful places
And all my friends look on
Knowing from the start it was wrong
Well maybe

Can you show me your love is real
Show me your love is real
Show me your love is real

Red sky descends in the morning
Feels like I'm never awake for the warning
And my family
Tell me I should come home when I leave
Well maybe
