You are the reason why I despise the world But still, you're the only reason why I'm still in it Time never healed my wounds It just made them more infected They talk about their heartache But I got a fucking heart attack

I can't reach my mind I can't reach my heart Why can't I leave you behind Never have a choice Never feel rejoice I damn my inner voice

And when two rivers run together, they can never be distinct again Locked in a dream to filter out your polluted stream

And when two rivers run together, they can never be distinct again Locked in a dream to filter out your polluted stream

Every time I talk with you, I never have a choice Every time I try to sew my wounds, You stretch them wide open

Time never washed my brain It just made it more infested I will break out of this mind prison I will break out!

I can't reach my mind I can't reach my heart Why can't I leave you behind Never have a choice Never feel rejoice I damn my inner voice

And when two rivers run together, they can never be distinct again Locked in a dream to filter out your polluted stream

And when two rivers run together, they can never be distinct again Locked in a dream to filter out your polluted stream

Every time I talk with you, I never have a choice Every time I try to sew my wounds, You stretch them wide open

And when two rivers run together,

they can never be distinct again Locked in a dream to filter out your polluted stream

And when two rivers run together, they can never be distinct again Locked in a dream to filter out your polluted stream
