Not 'cause you're older
Or 'cause you're better
Although you're older and you're better
Yes it's truly thrilling
But also 'cause you
Just let me love you

Adrian Adrian
This is my first time
So I hope you mean to love me well

I never looked for this
I never asked for that
No matter where I kiss your body
Keeps on kissing me back
It's good cause maybe you feel like
I do and maybe

Adrian Adrian
This is my first time
So I hope you mean to love me well

Come down from your high chair
And speak to me
This complicated situation does not fade me
All I wanna do is lie next to your heartbeat
And I would wait forever on this dirty street for

Adrian Adrian
This is my first time
So I hope you mean to love me well
