

Calm the Storm

Spoken

VERSE 1:

It's hard to believe so many years have passed
So many lessons learned and how some things never last
Holding onto dreams waiting for tomorrow to come
So many bridges were burned from all the things we can't outrun

PRE-CHORUS:

All the pages have turned
On how I never learned
I guess some things never last

CHORUS:

When the waves and tears will never let me go
Be the hope when the world is crashing down
Come wrap your arms around me
Calm the storm inside me
I need to feel you standing close to me
Be the hope when the world is crashing down
Come wrap your arms around me
Calm the storm inside me

VERSE 2:

I told you I would love until the end of time
You are the hope I need when you're here by my side

BRIDGE:

Say you'll never let me go
Say you'll never leave me here alone
Calm the storm inside my heart
Be the hope that I've been waiting on
Say you'll never let me go
Say you'll never leave me here alone
Calm the storm inside my heart, my heart

[CHORUS]
