

## Take the Fifth

Spoon

Wendy's walking out alone and it's Saturday night  
All the boys act tough but they've gotta bite  
When they do they'll get more than a slap on the wrist  
And it's clear who's promoting her own myth

So I'll take the fifth  
Take the fifth oh

Everybody talks it up all of Saturday night  
And all the kids want to brag in fact that they got a right  
But it ain't gonna be just a slap on the wrist  
And it's clear who's gonna go and promote her own myth

Gonna take the fifth  
Take the fifth oh  
But I'll take the fifth  
I'll take the fifth oh

In back of the room when she walk on trough find 'em stacked ag  
ainst the wall  
On the tip of their tongue is the word that all along could tur  
n around the way it'd fall

The thinking about what she's got she's about got me backed aga  
inst the wall  
On the tip of my tongue cause I knew it all along I'd be back t  
here if I wouldn't fall  
If I wouldn't fall

If I wouldn't fall  
Wendy's out on her own it's a Saturday night  
And I've been hanging around as if to save my life  
All the girls stand around with their hands on their hips  
Cause all the boys have already fallen prey to her myth

But I'm gonna take the fifth  
I'll take the fifth oh  
And I'll take the fifth  
I'll take the fifth oh  
And I'll take the fifth  
I'll take the fifth  
And I'll take the fifth  
I'll take the fifth oh
