Here, where the air's too thick to breathe I'll hit the road now, and take my leave No-one will care, I'll slip away Into the sun Where the clouds all meet the sky Where the sand blows in your eye I'll take your hand, we'll walk this land Into the sun Out where all the crows all dive your slack Out where the beer cans don't talk back We'll disappear Dit's time we run Into the sun (Into the sun) Into the sun (Into the sun) Now, for the times I've heard the sound From way up high to underground The wind will burn, our heads will turn Into the sun There where the cow walks the toad The tumbleweeds speak in secret code No lawns to mow, our new plateau Into the sun Out where the sagebrush sings our song Some will be jealous of our home But no friends we'll shun, as we fly off Into a new day Into the sun (Into the sun) Into the sun (Into the sun)

Yeah, oh, we gonna get there
Drivin' on the highway
All night long
All night long
It's gonna be boilin' hot
Out in the sun
Out in the sun
Out in the sun
