

All The Time

Status Praesents

After all there is time to stop
So bend over and remember
My cards weren't from the God

And you all have thought of my secret
20 minutes of the smells and noises
Picture of mine in your place

And that's why I have to go
What a feeling
In my head there is a feeling I feel inside me
That's why I have to
What I feeling in my head

No shaving can erase those bugs
Its under my skin, it has reached my blood
Another chapter of the story

My sleep never helps me out
All the mornings look the same
The face in mirror closes eyes

And that's why I have to go
What a feeling
In my head there is a feeling I feel inside me
That's why I have to
My guiding light has disappeared out there in those hills
What I feeling in my heart
