

Ride

Status Praesents

The snow begins to fall
Board's knockin' on my door
It's time to leave the downtown

Wanna spend some time
Outside this weird town
Wanna make ride trip to the mountain

Do you see the whole time

That had to sacrificed
Friends are here we got to ride!

Can't wait anymore
Till the day-off comes
my impatience's so overloaded

One time is enough
To try to fix the legs
On the board U'll never wanna leave it

Wanna take my board
Forget all the things
That make me angry make me ill
Wanna leave for the mountains
(let start another ride)

That's what I feel
It's fuckin real!
