

God of Forever

Steven Curtis Chapman

You are the very first, You are the last
God of the days ahead, God of the past
Before beginning beyond the end
You hold eternity, In the palm of your hand

God of Forever, You are Forever
Your love forever, Is what You made us for
God of Forever, You are Forever
And You have saved us, To be forever Yours

You told the hands of time when they could start
You've placed eternity in every heart
To You a thousand years is just a day
But You stepped into time, To take our sin away
