

# Lost In the Shadow

Steven Curtis Chapman

I wake to the sound of different voices calling my name  
Two little ones who want to start another day  
And one voice that's calling  
Take up your cross and come follow me

I want to get lost, in the shadow of the cross  
To answer the call surrender it all in the shadow  
I want to live this day with a humble heart  
That's ready to pay whatever it cost  
To find myself lost in the shadow of the cross

Living beneath the burden of this cross I carry  
Oh I'm finding more of Christ and losing more of me  
So I'll hide in his shadow  
Until I am nothing and he is everything

I want to get lost, in the shadow of the cross  
To answer the call surrender it all in the shadow  
I want to live this day with a humble heart  
That's ready to pay whatever it cost  
To find myself lost in the shadow of the cross

Lost in the shadow  
(Shadow of the Christ)  
What ever it cost that will to get love  
Lost in the shadow  
(Shadow)  
(Shadow)

The voices go silent now  
As my little ones they are sleeping  
But here in the shadow there's one whisper  
I still hear

I want to get lost, in the shadow of the cross  
To answer the call surrender it all in the shadow  
I want to live this day with a humble heart  
That's ready to pay whatever it cost  
To find myself lost in the shadow  
The shadow of the cross

Lost in the shadow  
(In the shadow of the Christ)  
Oh what ever it cost that will to get love  
Lost in the shadow  
(In the shadow of the Christ)  
Jesus is guarding you and me  
Lost in the shadow  
(In the shadow of the Christ)  
Saying take up the cross come and get lost  
Lost in the shadow  
(In the shadow of the Christ)  
Lost in the shadow
