

## Just Fade Away

### Stiff Little Fingers

She asks for more and I give less  
Why can't she see it's obvious  
I mean no but she takes yes  
I make it clear but she don't guess.

She comes around it gets me down  
But she don't catch a hint I drop  
She turns up it turns me off  
And she don't know when to stop.

What am I supposed to do?  
How to gently break the news?  
How to get the message through?  
Perhaps I should just fade away.

She asked me out and I gave in  
Then she gave out and I felt mean  
I really want no more of us  
So I stay home, she comes across.

She comes round I turn her down  
But she bounces back again  
She comes on I turn her off  
But she don't get what's really plain.

What am I supposed to do?  
Got to get the message through  
Got to make her see the truth  
I wish she would just fade away.

Do you want to know do I love you?  
The answer's no, is that straight enough for you?

She asked for it I told her flat  
That I don't want no more of that  
I've really had you up to here  
And I don't even like you near.

If you come round I won't be in  
I can't stand to see your face  
If we meet up then count me out  
Why don't you just fade away?

Fade away

When love's not love  
When love's not love  
When love's not love  
Fade away.
