

## Hold It

Stone Fury

I know the way you lived before  
Hold it  
There is no reason to even the score  
Hold it  
You're diggin' your own grave  
I see it in your face  
No matter what you do  
It's gonna finish you

I'll never cry for you  
And it's a nasty life you choose

I'm gonna say no more... to your lies  
Hold it  
To live or die, you decide  
Hold it  
Don't bet with your last dime  
I'll always be on your side  
No matter what you do  
There ain't a spell on you
