

Clear Sailing

Barbra Streisand

When I was lost, getting tossed
Like a bottle on a stormy sea
Somehow our fortunes crossed
You reached out and rescued me
Like the dark before the dawn
I was only waiting for you to come along
It's gonna be clear sailing
From now on

And I used to spend the night
And the night was like an ocean
I was caught up in the tides
constantly in motion
But your love for me
Held me like a lifeline
and now I do believe
Oh it's gonna be clear sailing
With a dream to sail on
Clear sailing from now on

Now I look into your eyes
the color of a quiet sea
Cast my love up on the tide
Watch it return to me
Now I'm feeling fine
I can tell the storm has passed
for the last time
It's gonna be clear sailing
From now on

Oh it's gonna be clear sailing
With a dream to sail on
Clear sailin'
From now on

Clear sailin'
From now on
