

Back Where We Belong

Sugarplum Fairy

There are times when everything and everyone
They all forget your name
There are words and promises
From people who they don't make any sense

Don't you know that I love?
When I know that it's real

So won't you please bring me back where we belong
Where I know it once begun
Please see don't leave us here to die
'Cause I still will wonder why

What you want I'll never know
But I know for sure that I don't wanna stay here
Please be real brother what's the deal
What you feel inside it's a sign of us going blind

Can't you see that it's pain?
When it struck you again

So won't you please bring me back where we belong
Where I know it once begun
Please see don't leave us here to die
'Cause I still wonder why

Back where we belong

Please bring me back where we belong
Where I know it once begun
Please see don't leave us here to die
'Cause I still will wonder why

Back where we belong
Back where we belong
