

This Is Unlove

Superman Is Dead

When we are one, in the sun
Against the heat, not gonna change
Beneath our heart, purple in our heart
Don't let our pride to become down

Someone talks about love, we feel it once
Please be so kind, that's why love goes
Some talk about love, we feel insane
Too much sick love in our past

Do you feel the same
Have you ever had a sick love
Do you come with me?
Get together in the sun

Here comes the love with a buch of burning dice
And so hard to try it, and put it out
Love sometimes mean nothing
And we got it fake
Or wanna tell you to beg to a beggar
