

Except Me

Sylver

You came into my life
You said you didn't know me
But from that moment on
You tried to control me

Everybody says you play me for a fool
Everybody knows your name
Everybody says you're trying to be cool
Everybody knows your game

Except me, I believe you
Except me, I know your love is true
The more they say, the more I walk away
I believe in you, just you

You paid here with my money
And took her for a ride
You kept calling her honey
But you'll sleep with me tonight.

Everybody says you play me for a fool
Everybody knows your name
Everybody says you're trying to be cool
Everybody knows your game

Except me, I believe you
Except me, I know your love is true
The more they say, the more I walk away
I believe in you, just you

Except me, I believe you
Except me, I know your love is true
The more they say, the more I walk away
I believe in you, just you

Your sweet brown eyes
Could never tell me lies
I believe in you
My boo

Everybody says you play me for a fool
Everybody knows your name
Everybody says you're trying to be cool
Everybody knows your game

Except me, I believe you
Except me, I know your love is true
The more they say, the more I walk away
I believe in you, just you

Except me, I believe you
Except me, I know your love is true
The more they say, the more I walk away
I believe in you, just you

Except me, I believe you
Except me, I know your love is true

The more they say, the more I walk away
I believe in you, just you
