

# Universe

**T. Rex**

Hey there sister  
Let's face the Universe and dance  
Hey there sister  
Let's face the Universe and dance

We'll bop over the galaxies  
We'll stroll over to Mars  
We'll romance on Jupiter  
Make love among the stars

If you really love me sister  
Let's face the Universe and dance  
If you really love me sister  
Let's face the Universe and dance
