

Genetic Overkill

Tankard

You make me angry
With all those filthy lies
"For mankind beneficial"
Is what you always say

Greedy to the backbone
Blessed be biotechnology
Consequences unknown
Money for the mega-companies
Thank you for the "false" food
Cool, that we can be your guinea-pigs

Genetic Overkill - eat shit
We all will pay the bill - legal damaged health
Genetic Overkill - that's sick
We all will pay the bill - to increase their wealth
Hey, ruthless Monsanto
Your Third World homicide
Controls them, exploits them
With crops and pesticides

Sanctions for Europe
That's what Bush has to say
But we don't want those products
Almighty U.S.A.

Greedy to the backbone
Blessed be biotechnology
Consequences unknown
Money for the mega-companies
Thank you for the "false" food
Cool, that we can be your guinea-pigs
