

Sweet Little Truth

Tasmin Archer

Am I a part of the latest thing or the latest thing you let go
Who needs to know
Am I a part of another world that's turned me upside down
Why do you put me under
Why does everything spin round

Have I begun to see beyond the clouds
Sweet little truth waltz into the room
And tell me something that I never knew
What else can I do

If it's coming let it get here soon
Oh why don't you talk it up
Patience is virtue and mine shines through
When you talk it up
Quietly hoping that this'll bring you a moment to last forever
Didn't you know
I never meant to be overheard
I thought it out too loud
Diving for the cover of some other whispering crowd

Have I begun to see beyond the clouds
Sweet little truth waltz into the room
And tell me something that I never knew
What else can I do

If it's coming let it get here soon
Oh why don't you talk it up
Patience is virtue and mine shines through
When you talk it up
there's an aura all around you
