

I'll Be There

Tevin Campbell

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

At some point, some time
You'll need someone there for you
And I will be the one

So whenever you need
Don't be afraid, call on me
And I will give to you

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

All you want, you need my time
I wanna give because
You're a special part of me

See I know you need many things
To feel complete, that's why
You should never hesitate

No matter what you think
I'm gonna always do things for you girl
I will take care of you

My word is all you need
And you'll see that I, I'll never let you down
And I'll be there for you baby
I will never let you down

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

No matter what you think
I'm gonna always do things for you girl

I will take care of you

My word is all you need
And you'll see that I, I'll never let you down

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
You can always count on me, baby

Don't you take your love from me
I'll be there
