Back in Blood

The 69 Eyes

I've been so lonely, lonely without you
Two thousand years, feeling nothing but blue
Wake me, take me, let me put my spell on you
Dreamtime eternal, the waiting is through

Like Romeo and Juliet
We're undead

Back in blood
Blood is the new black
Back in blood
Blood is the new black

You kept me waiting, waiting here for you
Two thousand years, baby what you gonna do?
Wake me, take me. let me share this curse with you
Moonlight eternal, the waiting is through

Like Romeo and Juliet
We're undead

Back in blood
Blood is the new black
Back in blood
Blood is the new black
