

# Shadow of Your Love

The 69 Eyes

Ride on a white horse  
Northern man  
Under the bluest skies  
Reflection in your eyes  
Got no fear  
Wisdom on your side  
Still you gotta ride  
Like for the last day of your life

Out of darkness I command  
This desolation land  
Eclipse shines above  
Like a shadow of your love

Talk to the mountain  
Talk to the moon  
Tell all the children  
Freedom rides with you  
African sunset  
World without end  
When you feel like hunted  
Death looks like a friend

Out of darkness I command  
This desolation land  
Eclipse shines above  
Like a shadow of your love
