

What Goes Up...

The Alan Parsons Project

What goes up must come down.
What must rise must fall...
And what goes on in your life
Is writing on the wall!
If all things must fall,
Why build a miracle at all?
If all things must pass,
Even a miracle won't last.
What goes up must come down.
What must stand alone?
And what goes on in your mind
Is turning into stone!
If all things must fall
Why build a miracle at all?
If all things must pass,
Even a pyramid won't last...

How can you be so sure?
How do you know what the end will endure?
How can you be so sure
That the wonders you've made in your life
Will be seen
By the millions who'll follow to visit the site
Of your dream?

What goes up must come down...
What goes 'round must come 'round...
What's been lost must be found...
