

Lost

The Answer

Cannot tell rap from wrong
I don't care, don't care no more
the circumstances been leading me..
I found myself amongst the clouds
friendly found brought the falling down
I skin my knees on a better heart regret

I found something I didn't not know I lost
took my life for granted at my cost
oh yeah

But I don't need the..
but I'm getting blow defeated on your lies
piece of mine is not so close at hand

Well I slept to my hurricane
and I'm never ever gonna feel the pain again
so step away from the crowds around of me

I found something I didn't not know I lost
took my life for granted at my cost

Ohh yeah

and you just think you got me down

You don't have control
you don't have control

Took around but now I clean
a dirt trapped direction in the high and free
the past ain't gonna wear me down no more
no it ain't

I found something I didn't not know I lost
I took my life for granted at my cost oh yeah
such a cost

You don't have control
You don't have control

I didn't not know, I didn't not know
what I was lost, I was lost, I was lost
