

Our Love Will Always Remain

The Aquadolls

It's raining its raining I wish that it was sunny out
It's chilly so chilly I wish that it was summertime again,
So dear

We're laughing and grooving and surfing till the sun goes down
We're chillin and killin its always fun when you're around me,
It's so clear

Looking back to the past its times like these, I wish they would last

Though times get rough, I know that you will always be there
For me, for all to see
And I promise that I'll do the same
The flowers that you gave me on the table
They may wilt but our love will always remain
Oooh our love

It's chilly so chilly I wish the clouds would open up
It's truly unruly the messes that we get ourselves in, oh dear
It's crazy so crazy the way that you could love someone
We're lazy, so lazy we really gotta get our shit done, and its
our fear

Looking back to the past its times like these, I wish they would last

Though times get rough, I know that you will always be there
For me, for all to see
And I promise that I'll do the same
The flowers that you gave me on the table
They may wilt but our love will always remain
Oooh our love
Oooh our love (4x)

The flowers that you gave me on the table
They may wilt but our love will always remain
