

Back and Forth

The Audition

Why do you only want, want to know
I can't believe how quick you asked me to go
You only want what's wrong
Don't you even start to think that I don't know what went on
'cause you left me after begging
For me to stay in your selfish way
Now I'm breaking while you're lagging
All the years we've made all the time we gave

So back and forth around it again
I'd say it's over
You're in you're out be gone with the wind
You blew me over now
How can you live with yourself

You only care about yourself
Never took the time to think about somebody else
You think about yourself
Dragged me to edge of hell and never cared if I fell
'cause you left me after begging
For me to stay in your selfish way
Now I'm breaking while you're lagging
All the years we've made all the time we gave
So back and forth around it again
I'd say it's over
You're in you're out be gone with the wind
You blew me over now
How can you live with yourself

How can you live with yourself
How can you live with yourself
How can you live with yourself
Oh how can you live with yourself

Tell me baby

How can you live with yourself
How can you live with yourself
Tell me baby

How can you live with yourself
How can you live with yourself
How can you live with your

So back and forth around again
And now...

So back and forth around it again
I'd say it's over
You're in you're out be gone with the wind
Tell me baby
So back and forth
You say it's over
You blew me over
You're in
You're out
You say it's over

You blew me over now
How can you live with yourself
How can you live with yourself
How can you live with yourself
Oh how can you live with yourself
How can you live with your
